Protecting Alabama's Natural Resources is the theme of the 2016 Alabama Soil and Water Conservation Society's annual meeting. Alabama has abundant natural resources from aquatic biodiversity to beautiful streams, rivers, lakes, and shoreline. We will explore the meaning and how soil and water conservation professionals can help *Protect Alabama's Natural Resources* for future generations.

We hope this conference will help us to better understand our soil and water resources so we can make better choices for protecting, managing and restoring them.

Program Overview: Major topics featured during the conference are:

- Aquatic biodiversity
- Water monitoring
- Weather history
- Climate variability
- Soil quality
- Tank (pesticide) cleanout
- Construction permits
- Weed management
