Alabama Soil and Water Conservation Society Annual Meeting

Consumption and Conservation of Natural Resources

June 7-9, 2017

Associated General Contractors—
Alabama
5000 Grantswood Road
Irondale, AL 35210

Consumption and Conservation of Natural Resources is the theme of the 2017 Alabama Soil and Water Conservation Society's annual meeting. Alabama has abundant natural resources from aquatic biodiversity to beautiful streams, rivers, lakes, and shoreline. We will explore natural resource consumption and how soil and water conservation professionals can help conserve Alabama's natural resources for future generations.

We hope this conference will help us to better understand our soil and water resources so we can make better choices for consuming and conserving them.

Program Overview: Major topics featured during the workshop and conference are:

- Geology for ESC professionals
- Basic soil technology
- Web soil survey
- BMPs using a systems concept
- Vegetation case studies
- ESC research updates
